

DISINFECT YOUR WORKPLACE

HOSPITAL GRADE DISINFECTANT

Netbiokem DSAM

1 Litre / 20 Litre / 200 Litre

Kills 99.99%
of most harmful
bacteria, fungi
and viruses

Ready to use water based formulation
Safe on men, machine and material

- ✓ Conforms to Virucidal Effectiveness European Standard EN 14476.
- ✓ Non-flammable and non-toxic formulation.
- ✓ Suitable for commercial, industrial, institutional and health services.
- ✓ Will not harm or damage fabrics, plastic metals, rubber or other surfaces.
- ✓ Recommended: 2X daily on employee transport. 2X weekly on workstation.

How to use as Spray

Spray Netbiokem DSAM onto the surface until completely wet.

Allow up to 5 minutes contact time for disinfection.

Wipe the surface with a clean dry lint free cloth. Do not rinse.

How to use as FOG: All fog treatments must be carried out in empty premises / areas with any air conditioning and recirculation systems switched off. Ensure all external doors are closed. Keep all internal doors / small space closures open. Positioning of static fogging equipment or movement of portable fogging equipment must be carried out to achieve a minimum dosage rate of 8mL/m3. The target particle size can range between 10µm - 50µm however for optimal performance we recommend a range between 10µm - 30µm with fogging application.
